

FINAL Call for Abstracts

2nd International Conference on FOOD SAFETY AND SECURITY

Next Generation Food Safety Technologies addressing Sustainable Development Goals

15 - 17 October 2018, St George's Hotel, Pretoria, South Africa

The conference theme "Next Generation Food Safety Technologies addressing Sustainable Development Goals" aims at developing and innovating local solutions required to address the sustainable development goals in order to transform our world and create "The Future We Want" to ensure safety in order to assure food security. Therefore, the next generation innovative technologies are required in the field of food safety especially within developing countries. Combining the force of indigenous food safety knowledge and practices as well as those of scientific research is key to achieving these goals. This conference represents how the sustainable development goals will be coupled with important food safety themes in order to address food safety and food security.

Themes:

- BIOSECURITY AND ZOOSES
- FOOD AND HEALTH RISK ASSESSMENT
- PESTICIDES AND CHEMICAL FOOD SAFETY
- ANTIMICROBIAL RESISTANCE IN THE AGROECOSYSTEM
- CURRENT AND EMERGING MICROBIAL FOOD BORNE PATHOGENS AND INDICATOR SYSTEMS
- SPECIAL WORKING SESSION ON LISTERIA
